Available - Available timesheets are timesheets that have been created for job orders that you have been assigned. These are timesheets that are available for you to enter your hours (timesheets that you are yet to submit for approval by the Client). **Incomplete -** Incomplete timesheets are timesheets that have been edited and saved but are yet to be submitted for approval by the Client.

Rejected - Rejected timesheets are timesheets that you have submitted for approval by the Client but have been rejected due to errors, discrepancies or incompleteness. You will need to go in and amend then resubmit again for approval by the Client. **Submitted** - Timesheets that have been submitted and awaiting approval by the Client.
